Course Title: **Tech 21st Century Classroom**

Surveyed (i.e. enrolled): **23**

Completed an evaluation: **17**

Completion rate: **74%**

Comments

BroPa was an amazing professor and I am so happy I got to know him this year, I will definitely come to his devotional parties next semester.
I was really nervous to take this class because it sounded way to hard at the beginning of the semester, but I'm glad I stuck to it. Brother Pacini is very eager to help you succeed, but also has high expectations for you
The one suggestion that I would give is to show the students exceptional work from their peers so they know more about what to aim for.
This class was a little hard for me at the beginning, but as I got into a routine I was able to manage the homework and projects better. I appreciate how kind and understanding Brother Pacini is. He wants us to succeed as students and future teachers, and you can really feel that.
I don’t really think much of this class, but I believe that the teacher has really made the class. I wish everyone could take the class from Brother Pacini because he added so much more meaning than a regular technology class would have. I can tell that he has a strong belief in the gospel and it really shows in his teaching. He truly is giving all his effort to being a Christ-like teacher.
Thank you for all you do for us!
