Completion rate: **103%**

Comments

in this class, I can tell that Brother Pacini genuinely cares about his students and our success, as students and future teachers
BroPa is very helpful and makes learning a happy thing to do.
Bro. Pa is an excellent teacher however their is a lot of work in this class. It?s beneficial but a lot
My absolute favorite professor. I arranged my schedule around making sure to take this class with him. I love how kind and caring and down-to-earth he is, he isn't afraid to make mistakes or tell us about mistakes that he has made in the classroom to help us grow. He also isn't afraid to have really hard conversations, which I really appreciate, because it is better to have hard or awkward conversations now about conduct in the classroom rather than finding out later.
.
I'm good lol
N/A
He goes on tangents and we don't always cover the material
Some of the projects are crazy intense and the all or nothing grading is extremely stressful.
Brother Pacini has taught me so much about the gospel and how to teach like the Savior.
No
None
I LOVED this class. It was amazing.
