Instructor: **Pacini, Benjamin**
Course Name: **ED 304 (03)**
Course Title: **Ed Psych & Human Development**

Surveyed (i.e. enrolled): **33**
Completed an evaluation: **21**
Completion rate: **64%**

Comments
I think in future semesters the work load should be more evened our over the semester because it got kind of confusing.
Was interesting
I would take as many classes as I possibly could from Brother Pacini!
This was BroPas first time teaching this class, but he did great!
It was by far one of my favorite classes I have ever taken and I will always remember it.
N/A
Bro Pa is AWESOME! He really knows what he's talking about and it was a joy to be in his class.
Too much homework - sometimes course work feels like busy work
I am very impressed with the class even if this was the first time Brother Pacini taught this class. I feel like I learned so much and we did so much in a short amount of time. We were running a million miles a minute but everything that we learned and discussed were interesting to me and had an importance. I would say that with a few assignments we had I was very unsure with how to do them but the TAs and Brother Pacini were very helpful through it all.
This class was really difficult because I felt like every time I walked into class we were starting from scratch, the structure varied from day to day. I felt like I never knew what I was going to walk into which was kind of frustrating because I always felt lost. I hope in the future this class will have more structure and also that there is an actual textbook because building a textbook was the most stressful thing in this class and feeling like I was always behind because some of the expectations weren't super clear and there was nothing to really look at for an example.
