Brigham Young University-Idaho

Senior Practicum
ED 449 – Winter 2022

Part I: Course Introduction

Instructor/contact info:

Name: Benjamin Pacini (But seriously, call me BroPa.)
Email: pacinib@byui.edu*
Phone and Zoom: (801) 618-7865*** 899-634-5818
Office Number: HIN 249

Description: This course is a clinical course in teaching in which students are placed in schools two times per week (practicum) and meet together for instruction once per week (seminar). The purpose of this course is to build teaching capacity in students, specifically: long-term planning, behavior management, professionalism, unit and lesson planning, assessment, and reflection.

Class Time & Place: Wed/Fri at school site (full day). M 9-11 HIN 335.
Office Hours: Monday 11-2. T/Th 1-3. W/F 4-5. Other times by appointment****
Lab Times: Fri HIN 307, 4-6 PM.

Course Introduction and Invitation:

I've hidden penguins in this syllabus. Try to find all of them. Good luck.

I have a not-so-secret research-crush on Raj Chetty. Let me show you why with a quote: "Students who had qualified, effective teachers are more likely to pursue a college education, earn higher wages (up to 2.5 million dollars over the child's lifetime), are less likely to be involved in teenage pregnancy, and more likely to live in wealthier neighborhoods than those who have had ineffective teachers."

Another: "Students from poor and minority backgrounds will perform academically as well as students from privileged households if they are effectively taught… students of effective teachers are confident, motivated, life-long learners."

Great teachers change lives. Literally. (And I mean that literally. I'm not saying literally figuratively people.) This is what gets me up in the morning: the chance to help others and give them access to a life filled with choices. That's what senior practicum is all about: making you into the kind of teacher that can change life trajectories for students. This is the first place that you'll have dedicated, long-term time in a classroom where you can apply what you've learned, and get real experience--and taste the joy that comes from helping students reach their potential--while you begin to reach yours.

There will be sweat, fun, tears, joy, and tremendous growth. I can't wait to meet you, and see you begin to change lives.

I do not believe it is an exaggeration to say that this is God's work. I'm happy to be a part of it with you.

Cheers,

Brother Benjamin Pacini (BroPa)

*I'm a terrible texter. I'm mediocre at answering phones, but I do try. I'm an excellent emailer. Best of all is the zoom channel, which I'll show in class.
** Google voice is great because it has a great spam screen. But, like, there's a spam screen. You'll need to say your name to get through. It's helpful if you say "student" too so I know who the heck you are, and that you aren't trying to sell me a vacuum. (I detest vacuum salespeople.)
PENGUIN
*** I am very flexible at finding times to work with you if you reach out. While I'm off campus Mon/Wed, I can still chat by phone!

Part II: Mission, Outcomes, Standards, and Alignment

The BYU-Idaho Teacher Education Department Vision:

Follow the example of the Savior to become outstanding educators who empower learners to reach their divine potential

BYU Idaho Mission Statement and Institutional Learning Objectives:

BYU-Idaho's mission is to develop disciples of Jesus Christ who are leaders in their homes, the Church, and their communities.

BYU Idaho Institutional Learning Objectives:

1. **Disciples of Jesus Christ:** Disciples of Jesus Christ have a testimony of Jesus Christ as the Son of God and strive to follow Him.
    1) Understand Doctrine and Principles of the Restored Gospel
    2) Make and Keep Covenants
    3) Live Standards of Honor and Integrity
    4) Work as Faithful Stewards of The Lord

2. **Sound thinkers:** Sound thinkers frame and solve problems using creative and critical thinking.
    1) Problem Solving
    2) Critical Thinking
    3) Inquiry and Analysis
    4) Innovation/Creativity

3. **Effective Communicators:** Effective communicators develop and express ideas that are purposeful, organized, and clear.
    1) Structure Content to Accomplish Specific Purposes
    2) Follow Appropriate Processes of Content Development
    3) Address Targeted Audiences Using Appropriate Modes of Delivery
    4) Express Ideas Clearly

4. **Skilled Collaborators:** Skilled collaborators work effectively with others to accomplish a shared vision.
    1) Fulfill Individual Responsibilities
    2) Facilitate Contributions of Others
    3) Foster Productive Group Climates
    4) Respond to Conflicts in Constructive Ways

How does this relate to our class?
I work very hard to make sure that this class is aligned to the university's ILOs. Let me give just a few examples: We will be working together in groups (ILO 4.2) to teach each other techniques of highly-effective teachers (ILO 2.2). You will use GoReact (ILO 3.3) to record your teaching, then reflect on it, and you will also give feedback to peer lessons (ILO 4.3) We review the skills of professionalism that allow you to navigate workplace politics (ILO 4.4) and teach you mindsets of personal dedication and internal locus of control (ILO 4.1) that will allow you to be totally successful in you chosen career. I suspect there are more ties--but I hope you can feel the light and inspiration coming from these. They have been crafted through inspiration, and striving to live up to them will be a blessing to you.

Course Overview:
This course will give you guided classroom experience and the opportunity to prepare and teach in the public-school classroom. Senior practicum also includes a seminar for the discussion of principles of learning and teaching as you get ready to go into student teaching. You will write and teach well-prepared lesson plans, you will write and teach a complete unit of study as well, which includes all of the following: designating the teaching/learning context in which you will be working, exploring the essential questions that define your unit, creating a big idea that will guide you as you prepare the lessons; deciding what students must know, understand, and do (KUDos) as a result of your teaching; developing an effective curriculum map; writing, administering, and analyzing the results of pre- and post-tests; creating meaningful lesson plans, reflecting on your teaching practices, and gathering samples of student work.

Course Vision:
Our vision and purpose in the teacher education department is to follow the example of the Savior to become outstanding educators who empower learners to reach their divine potential.

Senior practicum is the class that immediately precedes your student-teaching experience. As a result, our goal for the course is to help you reach toward the vision becoming an outstanding educator who directs children to reach toward their divine potential as children of our Heavenly father by giving you supported, guided experiences in real-world classrooms within a framework that aligns with the State of Idaho Standards for Elementary Education Teachers which follow:

1. Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.

2. Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.

3. Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.

4. Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.

5. Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.

6. Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.

7. Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross- disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.

8. Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.

9. Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.

Essential Questions:

1. What is effective teaching?
2. What habits and attitudes must I develop to help students learn?
3. What is effective classroom management?
4. Do you like penguins?
5. How can I drive academic achievement in students?

Course Outcomes:

- Differentiate universally designed instruction to meet the needs of all students, by modifying curriculum, accommodating for needs, and enriching/remediating (e.g., using multiple means of representation, engagement, representation of learning). {Idaho Elementary Education Standards 2(K1, P2)}
- Create a lesson plan: Implement rules and procedures that are structured to support effective learning (e.g., transitions, expectations, material management.
- Manage a classroom: Guide students to self-assess their learning and self-monitor their performance {Idaho Elementary Education Standards 3(P1, 2)}
- If you're looking to hide penguins, I always put them in the standards/course outcomes. They blend in well. Andrea keeps trying to find them all, and hasn't yet. We'll see if she finds this one. :D
- Teach self-assessment skills: Use assessment data to design and deliver instruction effectively in the context of the classroom to which you are assigned to (e.g., consider background/culture of each student, the purpose of learning the content, how the content will be used) {Idaho Elementary Education Standards 6}
- Design effective instruction from assessment data {Idaho Elementary Education Standards 6}
- Engage all children in learning Intentionally implement instruction that is clear, specific, and engaging (e.g., use effective questioning and discussion techniques): {Idaho Elementary Education Standards 5, 8(P1)}
- Perform in a professional way (e.g. Reflect on their practice objectively and grow as a result of that reflection, keep accurate records, dress professionally, advocate for students, collaborate with peers, etc…) {Idaho Core Standards 9(P3, 5, 4, D3), 10(K3,4, P1, D3)}
- Be guided by the Spirit as you plan and teach.

Required Common Assessments:

All senior practicum students at BYU-Idaho are assessed in the following ways:

- **Supervisor Evaluation:** Your university supervisor (that's BroPa) will evaluate you in accordance with the four domains of the Danielson framework: 1, Planning and preparation; 2, Classroom environment; 3, Instruction; 4, Professional Responsibilities. You should be able to demonstrate effectiveness with creating clear lesson outcomes, content delivery, student engagement, design for accessibility, classroom management and culture, and so on. Your mentor and supervisor will also evaluate your overall professionalism.
- **Capstone Unit Plan:** You will backwards plan and teach a complete unit of instruction. The unit plan is the major project of this course. Teacher-candidates will be required to formulate essential questions, "KUDos" (what students will know, understand, and do) and alignment of standards and objectives. Then, candidates will create assessments (both pre- and post-assessments) and will engage in intentional data analysis. Candidates will use that analysis to differentiate and remediate. Candidates will develop an instructional calendar that includes summative assessments, remediation and extension possibilities, and complete a written reflection on the entire process. You will also be required to submit several artifacts of student work, including assessments.
- **Portfolium:** You will be required to complete a portfolio of your best work from across your college experience.

Other Course Requirements[1]:

Students will also need to complete the following assignments:

- **Exit Interview:** Candidates will engage in an exit interview and reflection with their mentor, university supervisor (*waves*) and if applicable, administrator. This is a powerful opportunity for improvement.
- **Observations and minor assignments (O&MA):** Candidates will be observed twice during the semester by their university professor for formal evaluation. They will also record themselves using GoReact for formal evaluation purposes once per semester. They will finally complete several other assignments from time to time.
- **Attendance and Readings:** Students are required to be in class for every seminar and practicum. Students may reach out to the instructor if unforeseen events arise, though makeup work will be required in place of an absence. Student participation is expected and designed into the class. Students will complete readings, and will come ready for discussion. Students will be given "oral exams" of their learning from the readings both for accountability and to foster meaningful discussion. Nearly all readings are due Saturday night (to be ready for Monday class) as well as most other projects. Note that failure to attend class or practicum may result in an improvement plan or a requirement to retake the course.
- **Presentations**: Each student group will give a presentation on a classroom management technique from either Lemov's Teach Like a Champion (TLAC) or SEL and The Brain (SELATB) by Marilee Sprenger. Presentations should be fun and engaging, and should include explicit modelling and teaching, with opportunities for practice for fellow students. Students will take two weeks: week one will consist of teaching the concept and planning for application (keeping in mind that students have already read the content) and the second week on tweaking and reflection.

Part III: Course Breakdown and Grading:

Participation and Attendance

Come to class prepared--you will be graded for both attendance and preparation. If you miss too much class (or teaching days) you may be required to retake class. While we try to record class sessions, sometimes recordings don't work. It's your job to make sure that you know what is going on, what you missed, and how to make up missed days.

Grading:

Letter Grades will be assigned according to the following scale: See the University's grading policy here.

A	93-100	A-	90-93	B+	87-89	B	83-86
B-	80-82	C+	77-79	C	73-76	C-	70-73
D+	67-69	D	63-66	D-	60-62	F	0-59

Grade Breakdown:

5%	Exit Interview
5%	Consultancy Project
30%	Attendance[2], Preparation, Participation
30%	Capstone Unit Plan
30%	Observations and Minor Observations (More weight given to formal observations)

Grading Procedure and Philosophy:

Peer Grading: You will do some peer grading and peer feedback. You are about to be teachers, so this is good training. I expect you to grade with **kindness, honesty, and care**. I am ultimately responsible for grades in this course.

---

[1] **Note**: BroPa reserves the right to add assignments. He won't use this power for evil. Mostly.

[2] **Note:** Practicum absences in excess of 2 may result in an improvement plan, or potentially the requirement to repeat the course. If you cannot attend practicum, it is your responsibility to let your mentor teacher know. You are allowed one seminar absence per semester with no penalty. After that, you may be required to repeat the semester.

Grade Appeals: If you would like to appeal a grade, please email me. Note that I will regrade any assignment once--but I regrade the full assignment, not just the piece that a student may feel was unfair.

Part IV: Course Expectations and Explanations:

Required Course Materials:
You will need a working laptop, an internet connection, and a google email (you have one through BYUI). Your computer should work. (Not a joke.)

Please also purchase the following books:

OPTIONAL:

Hurst, B. and Reding, G. *Professionalism in Teaching.* Boston: Pearson. 2009. Print.

REQUIRED:

Lemov, D. *Teach Like a Champion: 49 Techniques that Put Students on the Path to College.* San Francisco: Jossey-Bass Inc Pub, 2010. Print.

Sprenger, M. *Social Emotional Learning and the Brain: Strategies to Help Your Students Thrive.*. Alexandria: ASCD, 2020. Print.

Whitaker, T. *What Great Teachers Do Differently: Nineteen Things That Matter Most.* Larchmont, NY: Eye on Education, 2012. Print.

Note that while updated editions are preferred, if you need to save a few bucks, I get it. You'll be responsible for making sure that you're reading the right pages, chapters, and missing bits, however.

Placement:
You will be placed at a school at the discretion of the instructor. All schools are located in Idaho Falls. You will need to obtain contact information for the mentor teacher and define expectations for communication (email, text, phone, etc.) Do not text or call them after 9:00 PM. Lesson plans should be provided to the mentor teacher prior to teaching a lesson. Discuss how the mentor teacher would like the plans submitted and when (s)he would like to see them. Make sure that you give them to your mentor teacher in plenty of time for comment ***before*** you teach them.

Time at School. Punctuality is an important hallmark of a professional educator. Arrive 30 minutes before school begins and stay at least 30 minutes after school, or until you and your mentor have completed all planning. You should keep the same contract hours that your mentor teacher is expected to keep. As you are invited, plan to accept invitations to PLC meetings, parent conferences, etc. It is up to your mentor and administration to determine the appropriateness of your attendance at these additional experiences.

Dress. Dress professionally in clothing appropriate for active teaching, for sitting on the floor or in short chairs, and bending over. No denim pants/jeans/Levis, including colored denim should be worn. No leggings. Your mentor and school may have different dress standards; however, remember that you should dress for the position you hope to achieve. There may be exceptions (e.g. field trips) but you should notify me in advance for approval. Men should be clean shaven, wear a button-up dress shirt, and dress slacks. Women should wear dress slacks/skirts with professional tops or a dress. Check your personal hygiene and make sure you smell good and look professional.

Transportation. You are responsible for your own transportation to and from your practicum placement. Students are encouraged to carpool when feasible. The following guidelines have been established for those participating in a carpool:

- Meet and leave from a central location
- Pray before you leave for your destination
- Leave on time
- Wear seatbelts whenever the car is in motion
- Obey and follow all traffic laws
- Agree on shared fuel costs at the beginning of the semester. Don't wait on this until the end of the semester.

Daily Lesson Plan. Decide with your cooperating teacher which lesson should be taught before the next day of practicum. Submit your formal lesson plan to the mentor teacher in accordance with the agreement between you. It is much better to submit a lesson plan early than late. I will check with your mentor teacher to be sure that lesson plans are complete and submitted in a timely fashion.

Observations. You will schedule three observations with your faculty supervisor (that's me!) throughout the semester: two in person, one online (through GoReact). Due dates are listed in i-Learn and on the course calendar. Please plan and coordinate with your classroom mentor when scheduling these observations.

Two feedback observations will be completed with the mentor teacher. Please refer to the course calendar and i-learn for these dates. Mentor teachers are encouraged to provide on-going, informal feedback to teacher candidates. You will need to submit a copy of the notes your mentor provides for these two feedback observations. They can be on the provided form or another document your mentor teacher prefers.

Observations are graded as complete or incomplete. If you schedule and complete 2 observations with BroPa, 1 observation through GoReact, and 2 Feedback Observations with your mentor, you will receive all points for the assignment. Your outcome or score on the observation does not influence your grade. However, **if your scores indicate that your teaching needs improvement, you may not be recommended for student teaching,** even if you pass the class. These instances will be handled on a case by case basis.

Scheduling Observations: This will be explained in class. You will need to schedule 2 observations with BroPa, 1 independent through GoReact, and another two with your mentor teacher. When it is time, please sign up for these as soon as possible. Be sure to consult with your mentor teacher on the day and time that would be best for this and schedule them as far in advance as possible, no later than 24 hours prior to the appointment. If you must cancel an appointment within 24 hours of the scheduled lesson, please call or text BroPa via cell to ensure I am aware of the cancellation.

Plan on an approximate 30-minute lesson with a 15-20 minute conference with me following your lesson. Please work with your mentor to allow you to leave the classroom for your post conference. Upload your lesson plan for the lesson to be observed to i-Learn for the corresponding observation number. (For example, if it is the second observation, upload your lesson plan to the assignment titled Observation #2) Lesson plans must be submitted by 8:00 am the morning of the observation. The late policy will take effect after that time.

Missing Days

If you need to miss a practicum day, please be sure to contact your mentor teacher immediately. You should also inform me at least before the school day begins (so that I don't come by your room to say hi when you aren't there). **If you are absent and do not inform me, that is a serious problem.** Missed days need to be made up if possible: students may go in on days when they have a free schedule. More than 2 missed days with no make-ups (or 4 with make-ups) may result in the need to retake the course. Not informing me of an absence is a serious concern. You may have one absence from seminar in a semester. More than that may end in you repeating the course. Zoom makeups will not be allowed. Be punctual.

Substitute Teaching
Substitute teaching is a valuable experience that we want students to have if it fits their schedule. Any substitute teaching needs to be cleared by BroPa before it happens, however. Substitute teaching during personal time will be approved. Substitute teaching during senior practicum time will not be. Similarly, changes of placement (subbing for a day when your principal needs you to) must be approved in advance.

Statement on dress code, masks, and honor code:
Keep the dress code.

I'm only a little evil, but I am a former middle school teacher, so be wise. Be kind to yourself, and keep the rules without being asked. Be kind to me by not making me say something. Wear masks. Put them over your nose. Keep the honor code. If you have an issue with anything, bring it up *before* you break it.

But, like, really, I am kinda evil. :>)

Dress Code:
- For regular classes attendance: BYUI-approved dress and grooming standards. Masks required.
- For Presentations: Show effort in your appearance to present and demonstrate professionalism. Masks required.

Late Work
You can always submit work early--and are encouraged to. Major projects that are submitted on time or early may be ***submitted and resubmitted as many times as necessary to get to the grade you desire.***[3] You will also get feedback on each submission to help you improve the quality of your work: the goal is to learn from the process of submission, feedback, improvement, and resubmission. Late submissions on ***major projects only*** will not be penalized but you only get one shot to submit. You will get somewhat less feedback if you submit late, and you will be graded by me. I will not intentionally grade you harshly, but I do tend to grade more harshly than peers and TAs. Note that I cannot extend the final course deadline.

Some assignments cannot be submitted late by their nature (like group presentations). Submitting them late without prior approval will result in an automatic zero grade. Minor assignments are generally not accepted late. Again, this is to keep you on track.

Please be mature and professional about extenuating circumstances. (e.g. family vacations are not emergencies, and even real emergencies still require you to reach out early.) You will find me to be very understanding, if you are responsible.

Links: Please check to make sure your links work before sending them. It makes me cry when I can't access your work. Sad penguins.

Questions and Communication
In the first week of class, you will learn about our zoom channel: please check it daily. While I'm always happy to answer questions, please do all you can to ask peers and consult class materials (e.g. syllabus) before reaching out. Questions that may apply to the whole class can be asked in the Zoom chat; personal questions should be emailed. I encourage people to ask their group first, the zoom channel second, the TA third, and BroPa fourth--to build your capacity to answer your own questions. That said, just ask! I love interacting with students, and will happily answer even if you go out of order.

Note on Emotional Health
One of my goals in this class is to help equip students with the habits, frame of mind, and resources to become resilient and emotionally strong. I believe strongly that creating emotionally strong, resilient students is about both decreasing

[3] Mastery Based Learning (most effectively promulgated by the brilliant--and brilliantly named--Benjamin Bloom) is a different education paradigm where we flip time and mastery. Rather than hold time constant, and let mastery fluctuate, MBL says that you can take all the time you need on a project, but you must get an excellent score on it. This means that students can work ahead, and go slower if needed. It's really good stuff, and I highly recommend you check it out. See here for more details. (The video is meh, but the documents are pretty good.)

stress, and increasing capacity. If discussions of emotional health are sensitive or difficult for you, please let me know as early as possible. I do not claim to have all the right ideas on this, but feel it to be important enough to bring up and discuss.

Additionally, I suspect that many of you lean toward perfectionism: teaching will help with that. You will learn, quickly, the art of "good enough." You should never feel the need to spend 3 hours on a 1 hour assignment. Be wise. Learn how to manage your own time carefully. Learn that excellence is better than perfectionism (including in grades) and know the difference between integrity and scrupulosity.

A thought on emotional health and grades: I hope all of you are aiming for an A. But I hope you realize that the real goal isn't the A, it's the learning--it's the success that you'll have in your classroom someday because of what you learned, the students' lives who will be changed, and the relationships you'll build with teachers, parents, students, and communities--and most importantly, the Lord. This is a very long-term game. You will see your success measured not in months, or even years, but decades and generations.

Sensitive Topics
The world is in tremendous turmoil. The devil is stirring men's hearts up unto anger, and it's hard to even have conversations on some topics. Elder Paul V. Johnson has asked faculty to have both "moral courage" and "intellectual courage." I do not believe that it is in your best interest for me to avoid difficult conversations. To the contrary, learning how to wrestle with difficult topics is one of the most important things you can take from your BYU-Idaho education. As such, I will attempt to do so with openness, sensitivity, and honesty. If there are questions that are important to you, don't hesitate to ask me privately--and if appropriate, I may raise such issues in class, as well. I should also be clear that everything these days is politicized, and everyone is angry. The solution is not to disagree less, but to disagree better. I do not expect you to agree with everything I say--I only expect respect and civility. In that context, I'm happy to discuss things that are pressing to you.

I also want to note just how deeply I believe in the gospel. I want anyone to feel welcome in my classroom, even if they aren't sure about some part or another. Having said that, I hope it is clear how unapologetically I am on the side of the Lord and His church.

On social media and my writings:
A student once complained that I require students to follow me on social media. (I don't. Lol.) You are welcome to, but you are never going to be required to. You should understand that I have opinions on things, including politics, and that we may not agree. If you are willing to be my friend, I'll be happy to add you–but I will not give any brownie points or extra credit for it.

I also have a podcast and write occasionally in various places. If you would like to listen to my podcast, please click here. (Also, and I say this with love, get a hobby.)

Two of the pieces I have published may be relevant to my classes, however, so I have included them below.

You Are Safe In My Classroom: What it Means and What it Doesn't. This article is an explanation of how important it is to create a safe place of belonging in my classroom, and also why I don't use pride imagery. It isn't perfect, but it may give you insight into how I feel about things.

An Open Letter to Charity: What I Believe About Education In response to a student's question, I wrote this doctoral paper to answer the question "what do I believe about education?" This is long. I need to edit it (and hope to at some point). It does, however, give the best answer I've been able to come up with about what I believe we should do about education. (I've even left in my professor's comments so you realize how long it is! :D)

Course Calendar
The Course Calendar outlines all assignments, topics, and modules of the class. The instructor reserves the right to make changes in the schedule and syllabus. Students will be informed of changes in a timely manner. This calendar may be found in the i-Learn course materials, and is attached here as well.

Syllabus Changes
This syllabus is a guide and every attempt is made to provide an accurate overview of the course. However, circumstances and events may make it necessary for the instructor to modify the syllabus during the semester and may depend, in part, on the progress, needs, and experiences of the students. Changes to the syllabus will be made with advance notice.

Part V: Standard Disclosures

Academic Honesty
"When you are honest in every way, you are able to enjoy peace of mind and maintain self-respect. You build strength of character, which allows you to be of service to God and others. You are trustworthy in the eyes of God and those around you. If you are dishonest in your words or actions, you hurt yourself and often hurt others as well. If you lie, steal, cheat, or neglect to give the full amount of work for your pay, you lose your self-respect. You lose the guidance of the Holy Ghost" ("Honesty," True to the Faith (2004), 84)

Academic Honesty means students do their own work. This also means their instructors will evaluate that work. Students should not be dishonest—this includes all types of work in their courses. The complete Academic Honesty Policy can be found at http://www.byui.edu/student-honor-office/ces-honor-code/academic-honesty.

All students attending BYU-Idaho have agreed in writing to adhere to the Honor Code. Cheating, which includes plagiarism, will not be tolerated. This includes using materials you did not create and claiming them as your own. Using ideas and resources shared in the teaching community is supported, however you must give attribution and add your own ideas, experience, etc. to found resources. Please check with the instructor before using resources such as Teachers Pay Teachers and Influencer produced materials. Anyone caught cheating will receive a zero on the assignment or exam, will be reported to the Student Honor Office, and may be expelled from the course.

Academic Support
Go to http://www.byui.edu/AcademicSupport , or come to the McKay Library 272 for information about how the writing, reading, math, and study skills centers can help you increase your success in all of your classes. To schedule a tutor for a specific class, log on to the Academic Support website, click on Tutor Request under Student Services and follow the instructions. Penguin. I'm evil, lol. Who puts a penguin in the standard disclosures? That's like supervillain level evil.

Academic Grievances
Students are encouraged to contact their instructors regarding course-related concerns. If concerns cannot be resolved in this way, students may contact the BYU-Idaho Support Center to formally register a concern or grievance. The Student Grievance Policy can be found here.

Disability Services
BYU-Idaho does not discriminate against persons with disabilities in providing its educational and administrative services and programs and follows applicable federal and state law. This policy extends to the University's electronic and information technologies (EIT).

Students with qualifying disabilities should contact the Disability Services Office at disabilityservices@byui.edu or 208.496.9210. Additional information about Disability Services resources can be found at http://www.byui.edu/disabilities

I am very easy to work with on this. Please know, however, that the best thing I can do for any student is give them

resources, empower them, and hold them to a high bar. Talk with me early if I can help in any way. PENGUIN.

Preventing Sexual Misconduct
BYU-Idaho prohibits sex discrimination by its employees and students in all of its education programs or activities. This includes all forms of sexual harassment, such as sexual assault, dating violence, domestic violence, stalking, conditioning a grade or job on participation in sexual conduct, and other forms of unwelcome sexual conduct.

As an instructor, one of my responsibilities is to help create a safe learning environment for my students and for the campus as a whole. University policy requires deans and department chairs, and encourages all faculty, to report every incident of sexual harassment that comes to their attention. If you encounter or experience sexual harassment, please contact the Title IX Coordinator at titleix@byui.edu or 208-496-9209. Additional information about sex discrimination, sexual harassment, and available resources can be found at www.byui.edu/titleix.
