Comments

As someone who was unable to pass the class, I still loved every moment of this class. I can't wait to take it again when I'm in better health.
I really really really enjoyed this course! Brother Pacini is a great teacher!
BroPa was amazing! I didn't expect this course to turn out the way it did. This course was different from any course I've taken before. I loved it. The purpose of the class was meaningful and something I'll hold onto.I've grown so much over the semester from this class. I'm really sad that it is now over.
