Brigham Young University-Idaho
Technology for the 21st Century
ED 211 – Spring 2020, Sections 2 and 3

Instructor: **Benjamin Pacini**

Contact: **Email:** pacinib@byui.edu
Phone: Google voice*** (phone): (801) 618-7865
Office Hours: Zoom room ID: 899-634-5818

Office Hours: Monday through Thursday 2:30 - 3:00 other times by appointment.

Class Time and Place: Section 2: Mondays and Wednesdays from 10:15 - 11:15 Remote Meetings
Section 3: Monday and Wednesday from 11:30 - 12:30 Remote Meetings

COURSE INTRODUCTION AND INVITATION:

I'm supposed to put something here about how important my class is, but since you're all taking online, remote, asynchronous classes on computers right now because of an international pandemic, I think you probably get the picture.

:>)

My goal is to create a course that is joyful, challenging, interesting, rigorous, and engaging. Note: I do not have TAs. Also, you're about to be real bona-fide teachers. As such, you should be ready to grade your peers' work with honesty, grace, and care. As a former teacher and administrator, I expect a lot from my students--but those expectations are just an investment in future growth. We're going to work hard, build our craft, and ultimately, have a blast.

But EdTech is more than just moving teaching online--it's also about challenging our paradigms, seeing others' full potential, and living up to the divine within each of us. Innovation, entrepreneurialism, and EdTech all drive at this same question of what we're truly capable of--and what we can do to help students realize their full potential.

The critical importance of technology in the classroom has never been clearer: future educators must have deep proficiency with educational technologies in order to be successful at helping students grow. This class is intended to create future leaders in the area of educational technology.

All you'll need is independence, gumption, an internet connection, and a willingness to work hard. You should have basic technological navigation skills (including word processing, internet navigation, and the ability to keep your computer running!) The rest of this syllabus details expectations, outcomes, and lots of other important details, so have a close read and let me know if you have any questions!

Welcome to Ed 211--I think you're going to love it!

Brother Benjamin Pacini

*** Google voice will screen for telemarketers by asking for your name. Please say "student, (your name)" to get through.

COURSE OVERVIEW:

Department goals:
The department publishes the required course outcomes for ED 211. The focus of this course is to:

1) Enhance teacher-candidate competence and confidence in fostering learners' use of technology to enhance learning,
2) Increase collaboration in a global and digital society, and
3) Develop digital citizenship.

The course content is based on Idaho core curriculum skills for students in the K-8 setting.

Essential Questions:
- What is educational technology?
- How can I effectively integrate technology into my teaching?
- How can I use technology to create effective and engaging lessons?
- How can my students use technology to increase learning capacity?
- How can tools in my classroom be managed effectively?
- How can I tell if people read the essential questions the answer is penguins?
- How do I manage students while using technology in the classroom?
- How can I teach and instill good habits and citizenship with students using technology?

Required Common Assessments:
1. Collaborative Group Project Final.
2. Portfolio that includes the following projects:
- Digital video such as Animoto
- Digital Citizenship and Safety Product
- Interactive Board Presentation
- Teacher Blog
- iMovie or equivalent application
- Flipgrid
- Nearpod

Student Learning Outcomes:
This course is designed to be integrated with the Professional Core Education courses for elementary education majors in the Teacher Education Program. Its purpose is to understand how to use and incorporate technology into your teaching and learning practices. By the end of this course you should be able to:

1. Cultivate a community of collaboration in their own classrooms using technology.
2. Evaluate, analyze, and compare different educational technologies.
    - Compare device criteria across carefully-developed rubrics, models, and metrics.
    - Evaluate EdTechs across carefully-developed rubrics, models, and metrics.
3. Utilize those technologies with expertise in a way that enables future student growth.
    - Know and correctly use correct vocabulary related to EdTech.
    - Have a strong educational plan for classroom integration of EdTech that focuses on furthering goals related to content and academic success.
4. Craft an intentional plan to teach students character and digital citizenship.
    - Intentionally crafting plans for management of EdTech integration, in terms of behavior management and accessibility.

5. Become an informed and thoughtful consumer of EdTech-related research.
6. Articulate the purposes of technology in the classroom, and the potential that it brings for the future.
    - Delineate the difference between utilizing EdTech to improve education, or to simply shift education to computers.
7. Function in your school setting as a leader in the area of educational technology.

ISTE Standards:

The technology skills you will learn are based on the standards developed International Society for Technology in Education (ISTE). The standards and the evidence from class assignments are listed in the following table:

International Society For Technology in Education (ISTE) Standards	**Evidence**
1. Facilitate and inspire student learning and creativity Teachers use their knowledge of subject matter, teaching and learning, and technology to facilitate experiences that advance student learning, creativity, and innovation.	IWB Board Lesson Screencast Lesson iPads Assignment
2. Design and develop digital age learning experiences and assessments Teachers design, develop, and evaluate authentic learning experiences and assessments incorporating contemporary tools and resources to maximize content learning in context and to develop the knowledge, skills, and attitudes identified in the Standards.	IWB Board Lesson Assessment Presentation Tech Evaluation
3. Model digital age work and learning Teachers exhibit knowledge, skills, and work processes representative of an innovative professional in a global and digital society.	Teacher Blog iPads Assignment Animoto Video Digital Poster
4. Promote and model digital citizenship and responsibility Teachers understand local and global societal issues and responsibilities in an evolving digital culture and exhibit legal and ethical behavior in their professional practices.	Presentation dress code Digital Citizenship IWB Digital Citizenship Brochure ePortfolio
5. Engage in professional growth and leadership Teachers continuously improve their professional practice, model lifelong learning, and exhibit leadership in their school and professional community by promoting and demonstrating the effective use of digital tools and resources.	IWB Board Presentation Teacher Blog iPads Assignment ePortfolio

REQUIRED COURSE MATERIALS:

There is no required text for this course. Readings will be provided through Canvas.

A Gmail account: BYU-Idaho recently added GSuite to their available technologies for all faculty and students. Please log into your BYU-Idaho gmail account and use this account for assignments and materials in this course.

A computer or laptop will be required for this course.

It is expected that you have basic technological fluency including word processing, internet navigation, and enough wherewithal to keep your device running. You will also be expected to download and utilize several apps. No app will be required that has a cost, but you are expected to be able to shop around, compare apps, and use the one that works best for you. The focus is on the output, not the specific app. If you have concerns about anything relating to this, please reach out asap.

NOTE ON REMOTE LEARNING ETIQUETTE:

The Honor Code, common sense, professionalism, and basic thoughtfulness should be the first place you visit with questions. If you're living the spirit of the law on those things, most of the below is already obvious. Teacher-candidates should consider what they would expect of their students in a classroom, and should do more than the bare minimums of compliance. If you have questions about etiquette, asking early is professional and appreciated.

- Please dress professionally for Zoom sessions in the same way as you would for class.
- Professional presentations--which will be noted--should include dressing as though for a professional interview or presentation.
- It's easier to build community if we can see each other. Cameras should be on during remote learning.
- Students should not leave a class session in-progress. Leaving a class may impact attendance.
- By default, please mute yourself unless you are contributing to class discussion.
- Use the hand raise feature and comment thread to indicate you have a comment or question.
- Please wear headphones or earbuds for audio, as it improves the clarity of sound for listeners.
- Find a quiet, clean space from which to tune in. It is your job to let others know that you are in class. I have kids--I get it (and you'll probably see them, no matter how hard I try!) I only expect you to do what you can.
- Please refrain from eating, grooming, exercising, skinning of wild beasts, etc. while tuning in to the live class. If you wouldn't do it in class, please don't do it in zoom.
- Some counsel: set a routine for yourself that will allow you to focus during class. Consider building a focus plan. I will not play "gotcha" with questions, but I expect you to pay attention.
- For presentations, please be engaging. It's kind to peers, but it's also great preparation for your classroom.

COURSE POLICIES AND EXPECTATIONS:

Dress Code:

- For regular classes attendance: BYUI-approved dress and grooming standards
- For Presentations: Show effort in your appearance to present and demonstrate professionalism.

Late Work
All assignments have due dates listed in Canvas (i-Learn). Please note the hour of the deadlines, or better yet, submit all work the day before it is due. Late assignments will automatically receive a deduction of 10% per day late, up to a 50% deduction. Assignments will not be accepted after 10 days late, at which point the assignment will no longer be available in i-Learn.

Please exercise professionalism about extenuating circumstances: reach out early, and come ready with a proposal. Please understand that if you reach out to Brother Pacini after the deadline, even with real extenuating circumstances, it is unlikely that you will be granted an exception. All decisions are made on a case-by-case basis, and at the discretion of the instructor.

Due to the nature of some course-work, late submissions will not be accepted. Such work may include class presentations, group assignments and portions of assignments that may include in-class sharing or discussion as part of the assignment. Such decisions are at the discretion, and if applicable, the TAs.

Assignments turned in incorrectly, including incorrect link sharing, will receive a score of zero. Where resubmission is possible, the assignment may be resubmitted and graded with a late penalty. Some assignments may not be submitted late. It is the responsibility of students to test their links to ensure they are working. In general, students should have back-up plans for technology difficulties as a matter of scholastic preparedness and also as a professional-in-training.

Community, Collaboration, Attendance and Disposition
One of the primary purposes of this course is to help model the intentional crafting of a community. Participation in the intentional building of that community is critical to your success as a teacher-candidate, and to the success of each student in this class. This is far more than mere attendance: teacher-candidates should take an active, intentional role in fostering a positive community and collaborating with peers. In other words, attendance is necessary--but not sufficient for--fully engaging in the process of building a collaborative community.

Dispositions reflect your character and integrity--and your professional reputation. I view it as an integral part of my job to instill in you the habits, mindsets, and professional dispositions that are expected of top-notch teachers. You reflect these in your consistency in attendance, promptness, advance preparation, quality work, independence, initiative, active participation, and willingness to find a solution where none exists.

It is anticipated that all course sessions will be recorded and posted for students to view--but students should not rely on those recordings. In the event of technical failure, students are still responsible for the learning that takes place in sessions.

The nature of this class is such that some course sessions will be held asynchronously. Attendance at mandatory synchronous class sessions is expected and may be graded at the discretion of the instructor. The teacher will commit to informing students whether classes will be held synchronously or asynchronously by the end of the class session previous.

The instructor reserves the right to adjust attendance scores based on participation and disposition.

Questions and Communication
Please check your email and the Zoom course chat at least once daily. While I'm always happy to answer questions, please do all you can to ask peers and consult class materials (e.g. syllabus) before reaching out. Questions that may apply to the whole class can be asked in the Zoom chat; personal questions should be emailed.

Grading:
Please reference the University's grading explanation here.

Letter Grades will be assigned according to the following scale:

A	93-100	A-	90-93	B+	87-89	B	83-86
B-	80-82	C+	77-79	C	73-76	C-	70-73
D+	67-69	D	63-66	D-	60-62	F	0-59

Grade Breakdown:

10% Readings & Responses
20% Contributions to Community
20% Projects and Assignments
20% Course Final
30% Digital Portfolium

Syllabus Changes

This syllabus is a guide and every attempt is made to provide an accurate overview of the course. However, circumstances and events may make it necessary for the instructor to modify the syllabus during the semester and may depend, in part, on the progress, needs, and experiences of the students. Changes to the syllabus will be made with advance notice.

Cheating/Plagiarism

All students attending BYU-Idaho have agreed in writing to adhere to the Honor Code. Cheating, which includes plagiarism, will not be tolerated. This includes using materials you did not create and claiming them as your own. Using ideas and resources shared in the teaching community is supported, however you must give attribution and add your own ideas, experience, etc. to found resources. Please check with the instructor before using resources such as Teachers Pay Teachers and Influencer produced materials. Anyone caught cheating will receive a zero on the assignment or exam, will be reported to the Student Honor Office, and may be expelled from the course.

Academic Support

Go to http://www.byui.edu/AcademicSupport , or come to the McKay Library 272 for information about how the writing, reading, math, and study skills centers can help you increase your success in all of your classes. To schedule a tutor for a specific class, log on to the Academic Support website, click on Tutor Request under Student Services and follow the instructions.

Disabilities Act

In compliance with the Americans with Disabilities Act, all qualified students enrolled in this course are entitled to "reasonable accommodation." It is the student's responsibility to disclose to the teacher any special need she/he may have before the end of the first week of class. Students with qualifying disabilities should contact Disability Services at disabilityservices@byui.edu or 208-496-9210. Additional information about Disability Services resources can be found at the Disability Services website

Sexual Discrimination

BYU-Idaho prohibits sex discrimination against any participant in its education programs or activities. Prohibited sex discrimination includes incidents of sexual harassment (including sexual violence), dating violence, domestic violence, sexual assault, and stalking (collectively "sexual misconduct"). Title IX also covers student-to-student sexual harassment. As an instructor, one of my responsibilities is to help create a safe learning environment for my students and for the campus as a whole. University policy requires that I report all incidents of sexual misconduct that come to my attention. If you encounter sexual misconduct, please contact the Title IX Coordinator at titleix@byui.edu or 208-496-9209. Additional information about sexual misconduct and available resources can be found at www.byui.edu/titleix

COURSE CALENDAR

The Course Calendar outlines the topics that will be included in this course. Other topics may also be included as appropriate. The instructor reserves the right to make changes in the schedule and syllabus. Students will be informed of changes in a timely manner. This calendar may be found in the i-Learn course materials, and will be attached at the end of this syllabus once finalized. Note that calendar is subject to change.
