Comments

BroPa is such a fun teacher, but really challenges you with work pace and information. He is all about being inclusive and creating a safe environment and does this very wel.

I loved this class!!
No
I LOVED Brother Pa! This was by far my favorite class and I would recommend him and this class to everyone in the Major!
I think this class was very well taught and helped me have a better understand and a greater desire to become a teacher.
Overall the classwork was good nothing to busy or hard he makes sure students can turn in quality work as well as make sure that students participate in learning as well as learn in groups and work in groups to help provide overall helpful tools and resources for the classes overall.
Nothing i need to say :)
I really appreciated this class and how you've been able to teach about how to be a good teacher but also a good person. There were times throughout the semester when I really didn't want to go to class or when I didn't feel good about myself but I would come to class and you would talk to us and we would have conversations about how you as a professor care about your students and other professors do. How you want us to succeed. And not only the professors but Heavenly Father as well. I didn't realize how much I needed to hear things you said this semester till you said things. So thank you BroPa, you really helped me this semester.
Favorite professor I have taken so far and I'm a junior.
Great course, professor, and overall best class this semester! I've learned so much, and this class is super beneficial in many aspects!
I loved this class! I learned so much. I wish Bropa would first explain the project and then the students would because I was always a little confused on what exactly I needed to do that week.
This course is a lot of work but if you stay on top of it than your grade won't suffer.
This has been my favorite class ever! I have had a lot of great classes throughout my school career, but this one has changed my whole life. The work and effort required made me learn much more than I ever would have, and Brother Pacini's fun and inclusive classroom made it even more impactful.
Such an amazing class from an amazing teacher.

I really appreciate this class. This taught me things I did not even know I needed to learn, Thank you so much BroPa you have changed my perspective. You are an exceptional teacher.
This was honestly my favorite class! I looked forward to coming to class and enjoyed each lesson.
My favorite class by far! An amazing teacher and was great at making connections to real life. Really enjoyed every class and the way Brother Pacini made things out to be.
This has been my favorite class of the semester and I am excited to take the skills that I've learned into real life.
