Brigham Young University-Idaho
Senior Practicum
ED 449 – Fall 2020, Section 3

Instructor: **Benjamin Pacini** (But seriously, call me BroPa.)

Contact: **Email:** pacinib@byui.edu*
Phone: Google voice** (phone): (801) 618-7865
Zoom room ID: 899-634-5818
Office Number: HIN 249

Office Hours: 10:00-11:00 & 1:00-2:00 Tues/Thurs. Fri 11:00-12:00. Other times by appointment***

Class Time and Place: School site instruction: M/W 7:45-4:15 (School site)
Friday seminar: F 9:00-11:00 HIN 209

COURSE INTRODUCTION AND INVITATION:

I have a not-so-secret research-crush on Raj Chetty. Let me show you why. (Stealing from M. Bryan's Syllabus:)

"In a study commissioned by the National Bureau of Economic Research in 2011, Raj Chetty, John N. Friedman, and Jonah E. Rockoff showed that students who had qualified, effective teachers are more likely to pursue a college education, earn higher wages (up to 2.5 million dollars over the child's lifetime), are less likely to be involved in teenage pregnancy, and more likely to live in wealthier neighborhoods than those who have had ineffective teachers."

Great teachers change lives.

Another quote: "Additionally, Katie Haycock (1998) of the Educational Trust has shown that students from poor and minority backgrounds will perform academically as well as students from privileged households if they are effectively taught, and Amy S. Polick, Kristin L. Cullen, and William Buskist in their 2010 study showed that students of effective teachers are confident, motivated, life-long learners."

This is what gets me up in the morning: the chance to help others and give them access to a life filled with choices. That's what senior practicum is all about: making you into the kind of teacher that can change life trajectories for students. This is the first place that you'll have dedicated, long-term time in a classroom where you can apply what you've learned, and get real experience--and taste the joy that comes from working with students.

It's also where you'll begin to see--and grow into--your divine potential.

There will be sweat. There may well be tears. And there will be lots of fun, joy, and tremendous growth. I can't wait to meet all of you, and see you begin to change lives.

Cheers,

Brother Benjamin Pacini

*I'm a terrible texter. I'm mediocre at answering phones, but I do try. I'm an excellent emailer. Best of all is the zoom channel, which I'll show in class.
** Google voice is great because it has a great spam screen. But, like, there's a spam screen. You'll need to say your name to get through. It's helpful if you say "student" too so I know who they heck you are, and that you aren't trying to sell me a vacuum. (I detest vacuum salespeople.)
*** I am very flexible at finding times to work with you if you reach out. While I'm off campus Mon/Wed, I can still chat by phone!

BYU Idaho Mission:

BYU-Idaho's mission is to develop disciples of Jesus Christ who are leaders in their homes, the Church, and their communities.

BYU Idaho Institutional Learning Objectives:

1. **Disciples of Jesus Christ:** Disciples of Jesus Christ have a testimony of Jesus Christ as the Son of God and strive to follow Him.
    1) Understand Doctrine and Principles of the Restored Gospel
    2) Make and Keep Covenants
    3) Live Standards of Honor and Integrity
    4) Work as Faithful Stewards of The Lord

2. **Sound thinkers:** Sound thinkers frame and solve problems using creative and critical thinking.
    1) Problem Solving
    2) Critical Thinking
    3) Inquiry and Analysis
    4) Innovation/Creativity

3. **Effective Communicators:** Effective communicators develop and express ideas that are purposeful, organized, and clear.
    1) Structure Content to Accomplish Specific Purposes
    2) Follow Appropriate Processes of Content Development
    3) Address Targeted Audiences Using Appropriate Modes of Delivery
    4) Express Ideas Clearly

4. **Skilled Collaborators:** Skilled collaborators work effectively with others to accomplish a shared vision.
    1) Fulfill Individual Responsibilities
    2) Facilitate Contributions of Others
    3) Foster Productive Group Climates
    4) Respond to Conflicts in Constructive Ways

How does this relate to our class?

I think you will find that every one of these ILOs is reflected in the design of this class. This is a happy accident: I did not know the ILOs when I was preparing. We will be working together in groups (ILO 4.2) to present key aspects of effective classroom management (ILO 3.1). We will discuss the importance of growth mindset, and how it relates to repentance (ILO 1.1) and will develop plans to improve in our own practice through repeated iterations of feedback and improvement (ILO 4.1). We will discuss the role of discipleship in teaching, and how teaching is a holy art. (ILO 1.4) We will talk about the potential of students, and your own potential as children of God. (ILO 1.1) We will do all of this in the context of living up to the honor code, (ILO 1.3) of making the world better through innovation and education, (ILO 1.4 and ILO 2.4) and through finding ways to help and serve even in times of strain.

I suspect there are more ties--but I hope you can feel the light and inspiration coming from these. They have been crafted through inspiration, and striving to live up to them will be a blessing to you.

COURSE OVERVIEW:

Yeah, but like, what is this class about?

This class is your chance to teach for the first time. Everything else is garnish. The objectives are to have a blast, develop the attitudes, dispositions, and mindsets of a stellar teacher, and to learn how to engage in iterative cycles of improvement (teach, reflect, improve, repeat). You will do reflections, you will do planning, you will do a tremendous amount of work--but your purpose is to set a pattern of improvement that will set the course for your future. It's to give you a taste of the joy of teaching, and let you begin to grow in your abilities.

Your Mondays and Wednesdays will be spent in class at your assigned school. Your Friday morning will be spent in activities meant to build your teaching abilities. In the meantime, there will be all sorts of good stuff: lesson planning, unit planning, curriculum maps, and lots more. You'll also create, administer, and analyze pre- and post-tests, and reflect on your results from those, and from your teaching generally. All of this work aligns with Idaho Teacher Preparation Standards.

Essential Questions:

1. What is the purpose of school?
2. What is the role of the teacher in student learning?
3. What is effective teaching?
4. What habits and attitudes must I develop to help students learn?
5. How do classroom management and appropriate relationships with students contribute to learning?
6. What is effective classroom management?
7. Do you like penguins?
8. How can I differentiate instruction effectively?

Course Outcomes:

- Differentiate universally designed instruction to meet the needs of all students, by modifying curriculum, accommodating for needs, and enriching/remediating (e.g., using multiple means of representation, engagement, representation of learning). {Idaho Elementary Education Standards 2(K1, P2)}
- Create a lesson plan: Implement rules and procedures that are structured to support effective learning (e.g., transitions, expectations, material management.
- Manage a classroom: Guide students to self-assess their learning and self-monitor their performance {Idaho Elementary Education Standards 3(P1, 2)}
- If you're looking to hide penguins, I always put them in the standards/course outcomes. They blend in well. Hannah keeps trying to find them all, and hasn't yet. We'll see if she finds this one. :D
- Teach self-assessment skills: Use assessment data to design and deliver instruction effectively in the context of the classroom to which you are assigned to (e.g., consider background/culture of each student, the purpose of learning the content, how the content will be used) {Idaho Elementary Education Standards 6}
- Design effective instruction from assessment data {Idaho Elementary Education Standards 6}
- Engage all children in learning Intentionally implement instruction that is clear, specific, and engaging (e.g., use effective questioning and discussion techniques): {Idaho Elementary Education Standards 5, 8(P1)}
- Perform in a professional way (e.g. Reflect on their practice objectively and grow as a result of that reflection, keep accurate records, dress professionally, advocate for students, collaborate with peers, etc…) {Idaho Core Standards 9(P3, 5, 4, D3), 10(K3,4, P1, D3)}
- Be guided by the Spirit as you plan and teach.

Required Common Assessments:

All senior practicum students at BYU-Idaho are assessed in the following ways:

- **Supervisor Evaluation:** Your university supervisor (that's BroPa) will evaluate you in accordance with the four domains of the Danielson framework: 1, Planning and preparation; 2, Classroom environment; 3, Instruction; 4, Professional Responsibilities. You should be able to demonstrate effectiveness with creating clear lesson outcomes, content delivery, student engagement, design for accessibility, classroom management and culture, and so on. Your mentor and supervisor will also evaluate your overall professionalism.
- **Formal Lesson Plan:** Students are required to submit a formal lesson plan that includes all the elements of good teaching. This lesson plan will be a model to use for the rest of the semester, and throughout your teaching career.
- **Capstone Unit Plan:** You will backwards plan and teach a complete unit of instruction. The unit plan is the major project of this course. Teacher-candidates will be required to formulate essential questions, "KUDos" (what students will know, understand, and do) and alignment of standards and objectives. Then, candidates will create assessments (both pre- and post-assessments) and will engage in intentional data analysis. Candidates will use that analysis to differentiate and remediate. Candidates will develop an instructional calendar that includes summative assessments, remediation and extension possibilities, and complete a written reflection on the entire process. You will also be required to submit several artifacts of student work, including assessments.

Other Course Requirements[1]:

Students will also need to complete the following assignments:

- **Exit Interview:** Candidates will engage in an exit interview and reflection with their mentor, university supervisor (*waves*) and if applicable, administrator. This is a powerful opportunity for improvement.
- **Observations:** Candidates will be observed twice during the semester by their university professor for formal evaluation. They will also record themselves using GoReact for formal evaluation purposes once per semester.
- **Reflections, Attendance, etc.:** Students will reflect weekly, participate in--and attend each session of--class, and participate intentionally.
- **Presentations**: Each student group will give a presentation on a classroom management technique from either Lemov's Teach Like a Champion (TLAC) or Pariser's Real Talk About Classroom Management (Real Talk). Presentations should be fun and engaging, and should include explicit modelling and teaching, with opportunities for practice for fellow students.

Grading:

Letter Grades will be assigned according to the following scale: See the University's grading policy here.

A	93-100	A-	90-93	B+	87-89	B	83-86
B-	80-82	C+	77-79	C	73-76	C-	70-73
D+	67-69	D	63-66	D-	60-62	F	0-59

Grade Breakdown:

5%	Exit Interview
10%	Lesson Plans
20%	Attendance[2], Preparation, Participation
20%	Readings & Reflections (and other minor assignments)
20%	Capstone Unit Plan
25%	Observations

[1] **Note**: BroPa reserves the right to add assignments. He won't use this power for evil. Mostly.

[2] **Note:** Practicum absences in excess of 2 may result in an improvement plan, or potentially the requirement to repeat the course. If you cannot attend practicum, it is your responsibility to let your mentor teacher know.

REQUIRED COURSE MATERIALS:

You will need a working laptop, an internet connection, and the following textbooks:

Pariser, Serena. **Real Talk About Classroom Management**: 50 Best Practices That Work and Show You Believe in Your Students. Thousand Oaks: Corwin, 2018. Print.

Hurst, B. and Reding, G. **Professionalism in Teaching.** Boston: Pearson. 2009. Print.

Lemov, D. **Teach Like a Champion**: 49 Techniques that Put Students on the Path to College. San Francisco: Jossey-Bass Inc Pub, 2010. Print.

Your computer should work. (Not a joke.)

OPTIONAL MATERIALS:

Kagan Smart Cards. (The whole set is valuable, but I particularly recommend the following:)

Win-win discipline
Classbuilding
Differentiated Instruction
Classroom Procedures

NOTE ON REMOTE LEARNING ETIQUETTE:

The Honor Code, common sense, professionalism, and basic thoughtfulness should be the first place you visit with questions. If you're living the spirit of the law on those things, most of the below is already obvious. Teacher-candidates should consider what they would expect of their students in a classroom, and should do more than the bare minimums of compliance. If you have questions about etiquette, asking early is professional and appreciated.

- Please dress and prepare professionally for Zoom sessions in the same way as you would for class.
- If you can't turn on your camera, I won't count you as present. I also might kick you out. Mostly because it's hilarious to kick people out randomly, but also because turn your camera on.
- Students should not leave a class session in-progress. Leaving a class may impact attendance.
- By default, please mute yourself unless you are contributing to class discussion.
- Use the hand raise feature and comment thread to indicate you have a comment or question.
- Please wear headphones or earbuds for audio, as it improves the clarity of sound for listeners.
- Please refrain from eating, grooming, exercising, driving/riding in a car, skinning of wild beasts, etc. in Zoom. If you wouldn't do it in class, please don't do it in zoom. Unless you skin beasts in class. Still don't. Weirdo.
- Some counsel: set a routine for yourself that will allow you to focus during class. Consider building a focus plan. I will not play "gotcha" with questions, but I expect you to pay attention.
- Find a quiet, clean space from which to tune in. It is your job to let others know that you are in class. I have kids--I get it (and you'll probably see them, no matter how hard I try!) I expect your best, and will give mine.
- For presentations, please be engaging. It's kind to peers, but it's also great preparation for your classroom.
- In general, students should have back-up plans for technology difficulties as a matter of scholastic preparedness and also as a professional-in-training.

COURSE POLICIES AND EXPECTATIONS:

Statement on masks, dress code, and honor code:
I'm evil.

Test me. I dare you.

maniacal laugh[3]

Dress Code:

- For regular classes attendance: BYUI-approved dress and grooming standards. Masks required.
- For Presentations: Show effort in your appearance to present and demonstrate professionalism. Masks required.

Late Work
You can always submit work early--and are encouraged to. If you submit early, you may submit ***as many times as necessary to get to the grade you desire[4] until the deadline.*** You will also get feedback on each submission to help you improve the quality of your work: the goal is to learn from the process of submission, feedback, improvement, and resubmission. Late submissions that are required for your classroom cannot be submitted late, and will receive a zero. Late submissions that are only required for my class will receive a 10% penalty per day late.

Please be mature and professional about extenuating circumstances. (e.g. family vacations are not emergencies, and even emergencies are your responsibility to talk with me about.) You will find me to be very understanding, if you are very responsible.

Links:

It is your responsibility to ensure links are correctly shared so that I can access them. If they are not, you will receive the grade as though it had not been submitted (either zero or with a regular late penalty).

Community, Collaboration, Attendance and Disposition
Attendance is necessary--but not sufficient for--success in this class. It will be graded--but so will disposition, your contribution to this community, and the way that you collaborate. One of the primary goals of this class is to teach you how to build communities intentionally, and I will be grading you on your contributions. Dispositions are particularly important: I want you to build the habits of character to be intentionally positive, solutions-oriented, creative, genuine, proactive, friendly, etc--precisely because there is so much negativity in the world. It matters more than you know. Do not plaster on a fake smile--be authentic. Ask questions, participate, and build others up. Be present in class (that means two different things: do both).

High-Flex
This class is high-flex, which means that students can attend seminar on zoom or in person as their needs are. Please let me be clear, however, that your placement in a school will have to be in accordance with the school's presentation method. To put it bluntly, I cannot see how someone could take this course and learn what they need to without being physically present in a school.

At present, the plan is to be ready to shift to online in case of lockdown. You should be ready to contribute to your mentor teacher's classroom in the event of a shift to online learning.

---

[3] Lol, not really. We'll talk in class. :)

[4] Mastery Based Learning (first conceived of by the brilliant--and brilliantly named--Benjamin Bloom) is a different education paradigm where we flip time and mastery. Rather than hold time constant, and let mastery fluctuate, MBL says that you can take all the time you need on a project, but you must get an excellent score on it. This means that students can work ahead, and go slower if needed. It's really good stuff, and I highly recommend you check it out. See here for more details. (The video is meh, but the documents are pretty good.)

I will attempt to record all class sessions, but you should not rely on those as recordings sometimes fail. You should get the information you need from class. In the event of technical failure, students are still responsible for the learning that takes place in sessions. Attendance matters in both synchronous and asynchronous classes.

Placement Expectations:

Contact Information. Obtain contact information for the mentor teacher and define expectations for communication (email, text, phone, etc.). Lesson plans should be provided to the mentor teacher prior to teaching a lesson. Discuss how the mentor teacher would like the plans submitted and when (s)he would like to see them. Make sure that you give them to your mentor teacher in plenty of time for comment *before* you teach them.

Time at School. Punctuality is an important hallmark of a professional educator. Arrive 30 minutes before school begins and stay at least 30 minutes after school, or until you and your mentor have completed all planning. You should keep the same contract hours that your mentor teacher is expected to keep. As you are invited, plan to accept invitations to PLC meetings, parent conferences, etc. It is up to your mentor and administration to determine the appropriateness of your attendance at these additional experiences.

Dress. Dress professionally in clothing appropriate for active teaching, for sitting on the floor or in short chairs, and bending over. No denim pants/jeans/Levis, including colored denim should be worn, even on casual Friday. Your mentor and school may have different dress standards; however, remember that you should dress for the position you hope to achieve. Field trips can be an exception. Men should be clean shaven, wear a button-up dress shirt, and dress slacks. Women should wear dress slacks/skirts with professional tops or a dress. Check your personal hygiene and make sure you smell good and look professional.

Transportation. You are responsible for your own transportation to and from your practicum placement. Students are encouraged to carpool when feasible. The following guidelines have been established for those participating in a carpool:

- Meet and leave from a central location
- Pray before you leave for your destination
- Leave on time
- Wear seatbelts whenever the car is in motion
- Obey and follow all traffic laws
- Agree on shared fuel costs at the beginning of the semester. Don't wait on this until the end of the semester.

Daily Lesson Plan. Decide with your cooperating teacher which lesson should be taught before the next day of practicum. Submit your formal lesson plan to the mentor teacher in accordance with the agreement between you. It is much better to submit a lesson plan early than late. I will check with your mentor teacher to be sure that lesson plans are complete and submitted in a timely fashion. These daily plans should be linked in your portfolio outline.

Calendar of Teaching Activities. You will have the opportunity to teach routine lessons with a short period of preparation (on-the-spot lessons). Working with small groups or with an individual child helps the mentor teacher differentiate instruction for students. Keep a record of all teaching activities in which you engage. These may be sketched after teaching lesson reviews or as part of your weekly reflection.

Observations. You will schedule three observations with your faculty supervisor (that's me!) throughout the semester: two in person, one online (through GoReact). Due dates are listed in i-Learn and on the course calendar. Please plan and coordinate with your classroom mentor when scheduling these observations. The late policy will apply to these observations. It is for your benefit to have observations spread out across the semester and receive continual feedback for your highest growth potential. You may be required to pick from specific days when I will be at your school.

Two feedback observations will be completed with the mentor teacher. Please refer to the course calendar and i-learn for these dates. Mentor teachers are encouraged to provide on-going, informal feedback to teacher candidates. You will need to submit a copy of the notes your mentor provides for these two feedback observations. They can be on the provided form or another document your mentor teacher prefers.

Observations are graded as complete or incomplete. If you schedule and complete 2 observations with BroPa, 1 observation through GoReact, and 2 Feedback Observations with your mentor, you will receive all points for the assignment. Your outcome or score on the observation does not influence your grade. However, **if your scores indicate that your teaching needs improvement, you may not be recommended for student teaching,** even if you pass the class. These instances will be handled on a case by case basis.

Scheduling Observations: This will be explained in class. You will need to schedule 2 observations with BroPa, 1 independent through GoReact, and another two with your mentor teacher. When it is time, please sign up for these as soon as possible. Be sure to consult with your mentor teacher on the day and time that would be best for this and schedule them as far in advance as possible, no later than 24 hours prior to the appointment. If you must cancel an appointment within 24 hours of the scheduled lesson, please call or text BroPa via cell to ensure I am aware of the cancellation.

Plan on an approximate 30-minute lesson with a 15-20 minute conference with me following your lesson. Please work with your mentor to allow you to leave the classroom for your post conference. Upload your lesson plan for the lesson to be observed to i-Learn for the corresponding observation number. (For example, if it is the second observation, upload your lesson plan to the assignment titled Observation #2) Lesson plans must be submitted by 8:00 am the morning of the observation. The late policy will take effect after that time.

In case of Lockdown:
Please do all in your power to prevent another lockdown. Follow the arrows, wear masks, etc. But in the event of lockdown, please be prepared to continue to teach with your mentor teacher during the start of the school year. Think early of ways that you can contribute to your teacher's classroom in the event of a lockdown.

Questions and Communication
In the first week of class, you will learn about our zoom channel: please check it daily. While I'm always happy to answer questions, please do all you can to ask peers and consult class materials (e.g. syllabus) before reaching out. Questions that may apply to the whole class can be asked in the Zoom chat; personal questions should be emailed. I encourage people to ask their group first, the zoom channel second, the TA third, and BroPa fourth. But seriously, just ask! I don't mind if you go out of order sometimes--it's better to get help than to stay confused!

Grading Procedure and Philosophy:
You will provide a lot of peer feedback. You are about to be teachers, so this is good training. I expect you to grade with kindness, honesty, and care.

If you would like to appeal a grade, please email me. Note that I will regrade any assignment once--but I regrade the full assignment, not just the piece that a student may want more points on.

Here is the general grading scale that I use for most rubrics, which is based off the DCPS Essential Practices rubric (the formal evaluation rubric used for scoring teachers professionally in Washington D.C.)

Highly Effective (4/3)	Effective (3/3)	Developing (2/3)	Ineffective (1/3)
Quality is that of an experienced, highly effective teacher. Student	Quality is that of a highly-motivated college student who has done	Quality is that of average college student quality. Student achievement will	Does not meet the criteria for a score of 2.

achievement will be strongly positive as a result of this learning experience.	high-quality work. Student achievement will be positive as a result of this learning experience.	be flat because of this learning experience.	

Notice that in the rubric above, you can earn up to four points on an assignment, but the grade is only out of three points. This means that I can hold a high bar of rigor, while still allowing you a chance to grow into your full capacity as a teacher. Receiving a three would count, grade-wise, as getting an A. But getting a four would mean that you are doing impressive work *for a veteran, highly effective professional educator.* This lets me hold you accountable in a fair way, that also lets you excel--while still maintaining a high bar of rigor.

Note on Emotional Health

We are struggling, nationally, with emotional well-being. This is important for your future students, but it's also important for you, right now, as human beings. One of my goals in this class is to help equip students with the habits, frame of mind, and resources to become resilient and emotionally strong. I believe strongly that creating emotionally strong, resilient students is about both decreasing stress, and increasing capacity. If discussions of emotional health are sensitive or difficult for you, please let me know as early as possible. I do not claim to have all the right ideas on this, but feel it to be important enough to bring up and discuss.

Additionally, I suspect that many of you lean toward perfectionism: teaching will help with that. You will learn, quickly, the art of "good enough." You should never feel the need to spend 3 hours on a 1 hour assignment. Be wise. Learn how to manage your own time carefully. Learn that excellence is better than perfectionism (including in grades) and know the difference between integrity and scrupulosity.

A thought on emotional health and grades: I hope all of you are aiming for an A. But I hope you realize that the real goal isn't the A, it's the learning--it's the success that you'll have in your classroom someday because of what you learned, the students' lives who will be changed, and the relationships you'll build with teachers, parents, students, and communities--and most importantly, the Lord. This is a very long-term game. You will see your success measured not in months, or even years, but decades and generations.

Sensitive Topics

The world is in tremendous turmoil. The devil is stirring men's hearts up unto anger, and it's hard to even have conversations on some topics. Elder Paul V. Johnson has asked faculty to have both "moral courage" and "intellectual courage." I do not believe that it is in your best interest for me to avoid difficult conversations. To the contrary, learning how to wrestle with difficult topics is one of the most important things you can take from your BYU-Idaho education. As such, I will attempt to do so with openness, sensitivity, and honesty. If there are questions that are important to you, don't hesitate to ask me privately--and if appropriate, I may raise such issues in class, as well. I should also be clear that everything these days is politicized, and everyone is angry. The solution is not to disagree less, but to disagree better. I do not expect you to agree with everything I say--I only expect respect and civility. In that context, I'm happy to discuss things that are pressing to you.

Course Calendar

The Course Calendar outlines all assignments, topics, and modules of the class. The instructor reserves the right to make changes in the schedule and syllabus. Students will be informed of changes in a timely manner. This calendar may be found in the i-Learn course materials, and is attached here as well.

Syllabus Changes

This syllabus is a guide and every attempt is made to provide an accurate overview of the course. However, circumstances and events may make it necessary for the instructor to modify the syllabus during the semester and may depend, in part, on the progress, needs, and experiences of the students. Changes to the syllabus will be made with advance notice.

Cheating/Plagiarism
All students attending BYU-Idaho have agreed in writing to adhere to the Honor Code. Cheating, which includes plagiarism, will not be tolerated. This includes using materials you did not create and claiming them as your own. Using ideas and resources shared in the teaching community is supported, however you must give attribution and add your own ideas, experience, etc. to found resources. Please check with the instructor before using resources such as Teachers Pay Teachers and Influencer produced materials. Anyone caught cheating will receive a zero on the assignment or exam, will be reported to the Student Honor Office, and may be expelled from the course.

Academic Support
Go to http://www.byui.edu/AcademicSupport , or come to the McKay Library 272 for information about how the writing, reading, math, and study skills centers can help you increase your success in all of your classes. To schedule a tutor for a specific class, log on to the Academic Support website, click on Tutor Request under Student Services and follow the instructions.

Disabilities Act
In compliance with the Americans with Disabilities Act, all qualified students enrolled in this course are entitled to "reasonable accommodation." It is the student's responsibility to disclose to the teacher any special need she/he may have before the end of the first week of class. Students with qualifying disabilities should contact Disability Services at disabilityservices@byui.edu or 208-496-9210. Additional information about Disability Services resources can be found at the Disability Services website.

I am very easy to work with on this. Please know, however, that the best thing I can do for any student is give them resources, empower them, and hold them to a high bar. Talk with me early if I can help in any way.

Sexual Discrimination
BYU-Idaho prohibits sex discrimination against any participant in its education programs or activities. Prohibited sex discrimination includes incidents of sexual harassment (including sexual violence), dating violence, domestic violence, sexual assault, and stalking (collectively "sexual misconduct"). Title IX also covers student-to-student sexual harassment. As an instructor, one of my responsibilities is to help create a safe learning environment for my students and for the campus as a whole. University policy requires that I report all incidents of sexual misconduct that come to my attention. If you encounter sexual misconduct, please contact the Title IX Coordinator at titleix@byui.edu or 208-496-9209. Additional information about sexual misconduct and available resources can be found at www.byui.edu/titleix
